

UPC Communications Irl. Ltd.
Block P2 Eastpoint Buisness Park,
Dublin 3

To Whom It May Concern

I am responsible for the Facilities Maintenance on all UPC sites in Ireland.
I also manage all the service contractors and I one of the most important is our fire service contracts.

Independent Fire have been the preferred service provider and installer of all our fire safety systems ranging from, Gas and Water detection, fire detection and fire suppression systems for over 7 years.

During this time the company and its employees have consistently provided us with a top class service. All of the staff who work on our site are extremely reliable and dependable. The work carried out on site has always been to the highest possible standard and the response by the company to emergency call outs is second to none. Their pricing structure and costs have always been very competitive and the products provided are of high quality.

I would have no hesitation in recommending Independent Fire to any company or person who may be looking to avail of their services.

If you have any queries please feel free to contact myself at any time.

Best Regards,

**Paul Warnock
