Re.Letter of Recommendation
Date : 14/4/2012

To Whom It May Concern:

Independent Fire Services have been one of our subcontractors since 2005; we contract them to carry out the service and maintenance of Fire alarm and Emergency lighting systems and also Portable extinguishers. We have also used their services to carry out many upgrades and installations for our clients. Through out the past 7 years we have developed a good working relationship with both staff and management alike, and have found them to be trustworthy, professional and very cost effective in carrying out their duties.

In general I find IFS to be knowledgeable in their area of expertise, and from survey to commissioning; the work is carried out to a very high level of competency. I would have no hesitation in recommending IFS for whatever work they are applying for and wish them the best of luck in the tender process they are engaging in.

I hope the above meets your approval, if you have any queries please do not hesitate in contacting me.

Regards,

Electrical & Security Ltd.

David Buggy (086 8108021).
